(Bachelor of engineering)

WORK EXPERIENCE

Party Place & Rentals   **Remote (US)** *Web Developer* **Jun 2024 - Sep 2025**

- Developed a fully responsive eCommerce website for ([Party Place & Rentals](#)) using HTML**,** CSS**,** React**,** Next.js, and Chakra UI designed to simplify the shopping experience for customers purchasing party supplies, balloons, and rental products.

- Integrated Stripe payment gateway for secure online transactions and USPS shipping services to provide accurate shipping rates and delivery tracking.

- Built and structured three key user-facing sections:

  1. Landing Page — Showcases products, promotions, and easy navigation.

  2. Product & Checkout Pages — Let customers browse, add to cart, and pay seamlessly.

  3. Order History Page — Allows users to view past purchases and track shipments.

  4. Admin Dashboard – Includes authentication and tools to manage products, orders, inventory, and shipping operations.

Yaba Tech MFB (update)   **Remote (NG)** *Web Developer*   **May 2024 - May 2025**

- Enhanced the platform by optimizing performance , improving UI design, and adding new features. Upgraded the payment system for faster transactions, added filtering options for easier record tracking, and expanded the Admin Dashboard with analytics, user management, and real-time monitoring tools. ([YCTMFB](#))

OGUNCCIMA   **Remote (NG)** *Web Developer*   **Feb 2025 - Apr 2025**

- Developed a responsive website for ([OGUNCCIMA](#)) using HTML**,** CSS**,** React**,** Next.js, and Chakra UI to streamline member registration and payment processes.

- Enabled businesses to register under their respective chambers of commerce.

- Integrated Cloudinary for secure image and document storage.

- Built an Admin Dashboard to approve members, send invoices, save drafts, manage payments, and view statistical graphs of members and activities.

Yaba Tech MFB   **Remote (NG)** *Web Developer*   **Aug 2024** - **Jan 2025**

•   Developed a responsive website for ([Yaba Tech MFB](#)) using HTML**,** CSS**,** React**,** Next.js, and Chakra UI to streamline payment processes. The platform allows clients to make payments related to school activities seamlessly.

•   Created and implemented three core sections:

1. Landing Page — Provides an overview and easy navigation for users.
2. Client Payment Page — Enables users to select and process various payment types available on the platform.
3. Payment History Page — Allows clients to track and review their payment records.

•   Designed Admin Authentication and a comprehensive Admin Dashboard to manage and oversee client activities and transactions.

Monmouth Cards   **Remote (US)** *Web Developer*   **Jan 2023 - Aug 2024**

•   utilized HTML, CSS, React, Next.js, and Chakra UI to develop a responsive website ([monmouth](#)) for a company specializing in selling cards. The website facilitates card sales by connecting to a database and consuming APIs provided by the backend developer. The design adheres to the specifications created by the UI/UX developer.

•   Collaborate with fellow developers on the project to generate an exceptional website tailored to meet the requirements of my clients.

•   Established a dedicated segment for the developers within the team, ensuring productive meetings and thorough error checks prior to submission.

YCT Micro-finance Bank   **Remote (Nigeria)** *Web Developer*   **Oct 2022 - Dec 2022**

•   Developed a full loan management website using ReactJS and Chakra UI, integrated with backend APIs to enhance performance and functionality. ([yctmfb](#))

•   Enabled members to apply for loans, register as guarantors, and track applications, with an Admin Dashboard for reviewing, approving, or exporting applications**.**

Morenikeji Store **Remote (Nigeria)** *Web Developer*   **Jul 2022 - Aug 2022**

• Developed and implemented a visually stunning website ([Morenikeji store](#)) that increased client engagement by 40%, resulting in an average of 200 unique visitors per month.

• Utilized SEO strategies to improve website visibility.

• Optimized website load speed by 50% through code optimization and image compression techniques, leading to a decrease in bounce rate by 25% and an increase in page views by 30%.

LEADERSHIP EXPERIENCE Techzilla Inc Nigeria *Web Developer*   **Jan 2020 - Present**

•   Project Management Excellence: Directed a team of 6 developers in executing a diverse range of web projects, including e-commerce platforms, corporate websites, and custom web applications. • Technical Innovation: Spearheaded the adoption of modern development frameworks and tools, such as React.js and Node.js, which led to a 30% increase in application performance and responsiveness. Also Introduced automated testing practices, reducing the number of post-launch issues by 25% and enhancing overall product quality.

•   Cross-functional Collaboration: Worked closely with design, UX/UI, and QA teams to ensure seamless integration of design elements, optimal user experiences, and rigorous quality assurance. Facilitated cross-functional brainstorming sessions, resulting in innovative solutions that exceeded client expectations.
